

Just thought I would drop a line to let you guys know how impressed I am with the 6.0 diesel engine build you did for me with the SOA pistons. I have about 1000 miles on the engine. I am already seeing unbelievable fuel mileage -- 22-23 mpg. I can't wait to get off winter blend diesel and on summer blend which has higher BTU value which should put me into the mid-twenties on fuel mileage. I also notice a little more horsepower and seems to run cooler as well. "

"I will keep you updated on the performance as more miles are put on my 2005 Ford F-250."

Thanks again,

Jody Goodman
